User Guide for the Booking and Management Portal openIRIS

at the Department of Veterinary Medicine at the Freie Universität Berlin

(updated July 2024)

Overview

Step 1	Login
Step 2	Group registration
Step 3	Registration FB Veterinärmedizin

General Notes

This part of the user guide is primarily dedicated to Principal Investigators (PIs) to register a new group

The Department of Veterinary Medicine consists of various units (WE01-20) with diverse and subject-specific research projects. The bundling of specific resources, devices and services within the institute is accomplished via the booking and management system **openIRIS**.

The Veterinary Center for Resistance Research (TZR), as a national and international veterinary research center, combines basic research in infectious medicine, hygiene subjects and veterinary-clinical issues of resistance research affiliated to the **Department of Veterinary Medicine at the Free University of Berlin** (FUB). The TZR, with its service units mass spectrometry and microscopy, serve as central contact for the integration of devices and services within the department into the openIRIS portal and successively address other institutes. For any urgent questions or comments, please contact the lab manager of the respective service units.

In the following, we briefly introduce major aspects and give short introductions to the openIRIS portal. Here, it is briefly explained how to **log into the openIRIS portal**, create a **new group**, and **register** for the **FB VetMed** to get **access to all devices** and **services** at the campus. For detailed information, we refer to the wiki documentation of the openIRIS portal (see link below).

Documentation: https://wiki.helsinki.fi/display/openiris

Step 1 Login

To access the online portal **openIRIS**, open your browser (Firefox, Chrome, Edge etc.) and enter the web address (<u>https://fub.openiris.io</u>) for direct access to the FU Berlin portal (**Figure 1**).

Figure 1. Login web address of the online booking and management system openIRIS via the FU Berlin portal.

Press on the **Sign In / Register** button and a new window pops up (**Figure 2**). You can only register with an **email address from the FU Berlin** (*@fu-berlin.de*). After entering the email address and pressing the **Log in**-button, you will be forwarded to the *Zedat login page*, where the FUB-specific *login name* and *password* must be entered. After that you get directly access to the openIRIS portal.

Figure 2. Login window for online portal openIRIS.

Now you have access to the openIRIS portal and can see all the devices and services of the different organizations. However, you have not yet been authorized to make bookings or inquiries as long as you do not belong to a group and have been assigned to any provider (department) (see next chapter).

If, after login, you arrive on a blank page with only the FU-Logo displayed on the upper left, maybe an advertise blocker prevents execution of the necessary Java Scripts. Disabling of the blocker for https://fub.openiris.io may help in this case.

Step 2 Group registration

Before any bookings or inquiries can be made, the PI must apply to register the group for the openIRIS portal as follows:

(1) First you have to go to the tab **Services** and look for the entry *Add my group to FUB IRIS FU-Berlin* (**Figure 3**).

Adding your group to FUB IRIS by this request is restricted to groups of the department of Biology. Chemistry, and Pharmacy (BCP), the department of Physics and the department of Veterinary Medicine.	2

Figure 3. Group registration request via the 'Services' tab of the online booking tool openIRIS.

(2) Press SUBMIT REQUEST button and fill out the short form that pops up in a window (**Figure 4**). Please fill out the short form with all relevant information, accept the usage policies of the respective provider, and submit the form.

The application will be reviewed and the group prepared in the openIRIS portal accordingly.

Please note, the PI and admin of the group are responsible for any costs incurred by group members!

Step 3 Registration with FB Veterinärmedizin

FB Veterinärmedizin provide access to their resources based on the group. Thus, the **group's registration** with FB Veterinärmedizin is **mandatory** to provide group members with access to the resources. Members, of groups that are not registered with FB Veterinärmedizin, are not able to book their resources.

(1) Group's admin has to click on the tab **Services** and look for the entry *Register my group with FB Veterinärmedizin* (**Figure 6**).
